

Forest and farm producers for restoration

AFR 100 - private sector investment
Ghana Federation of Forest and Farm Producers – GhaFFaP
Presenter : **Mark Kebo Akparibo**

About GhaFFaP

- GhaFFaP is a national federation of FFPOs
- Membership of over **1 million** smallholder forest and farm producers – found in 3 ecological zones :
Forest, Transition and **Savanna** ecological zones of Ghana
- Learn more about GhaFFaP :
www.ghaffap.org

Did you know
that
smallholders
make the
world's largest
private
sector?

The total economic value created by smallholder production is estimated at **US\$ 8.7 to US\$ 25.9 trillion** per year, which equates to up to **35%** of global economic output.

Globally, a majority of the estimated **two billion** hectares of degraded land with potential for restoration, **is on, or adjacent to**, farmland.

ENGAGE THE REAL CHANGE MAKERS

Globally, a majority of the estimated two billion hectares of degraded land with potential for restoration, is on, or adjacent to, farm land.

Implementation Of restoration

National targets and commitments
cannot be met without smallholder
forest and farm producers

Crucial role of FFPOs

Technical support

For agro-ecology, regenerative agriculture, agroforestry etc

Access to markets

For new products coming out of the restoration interventions

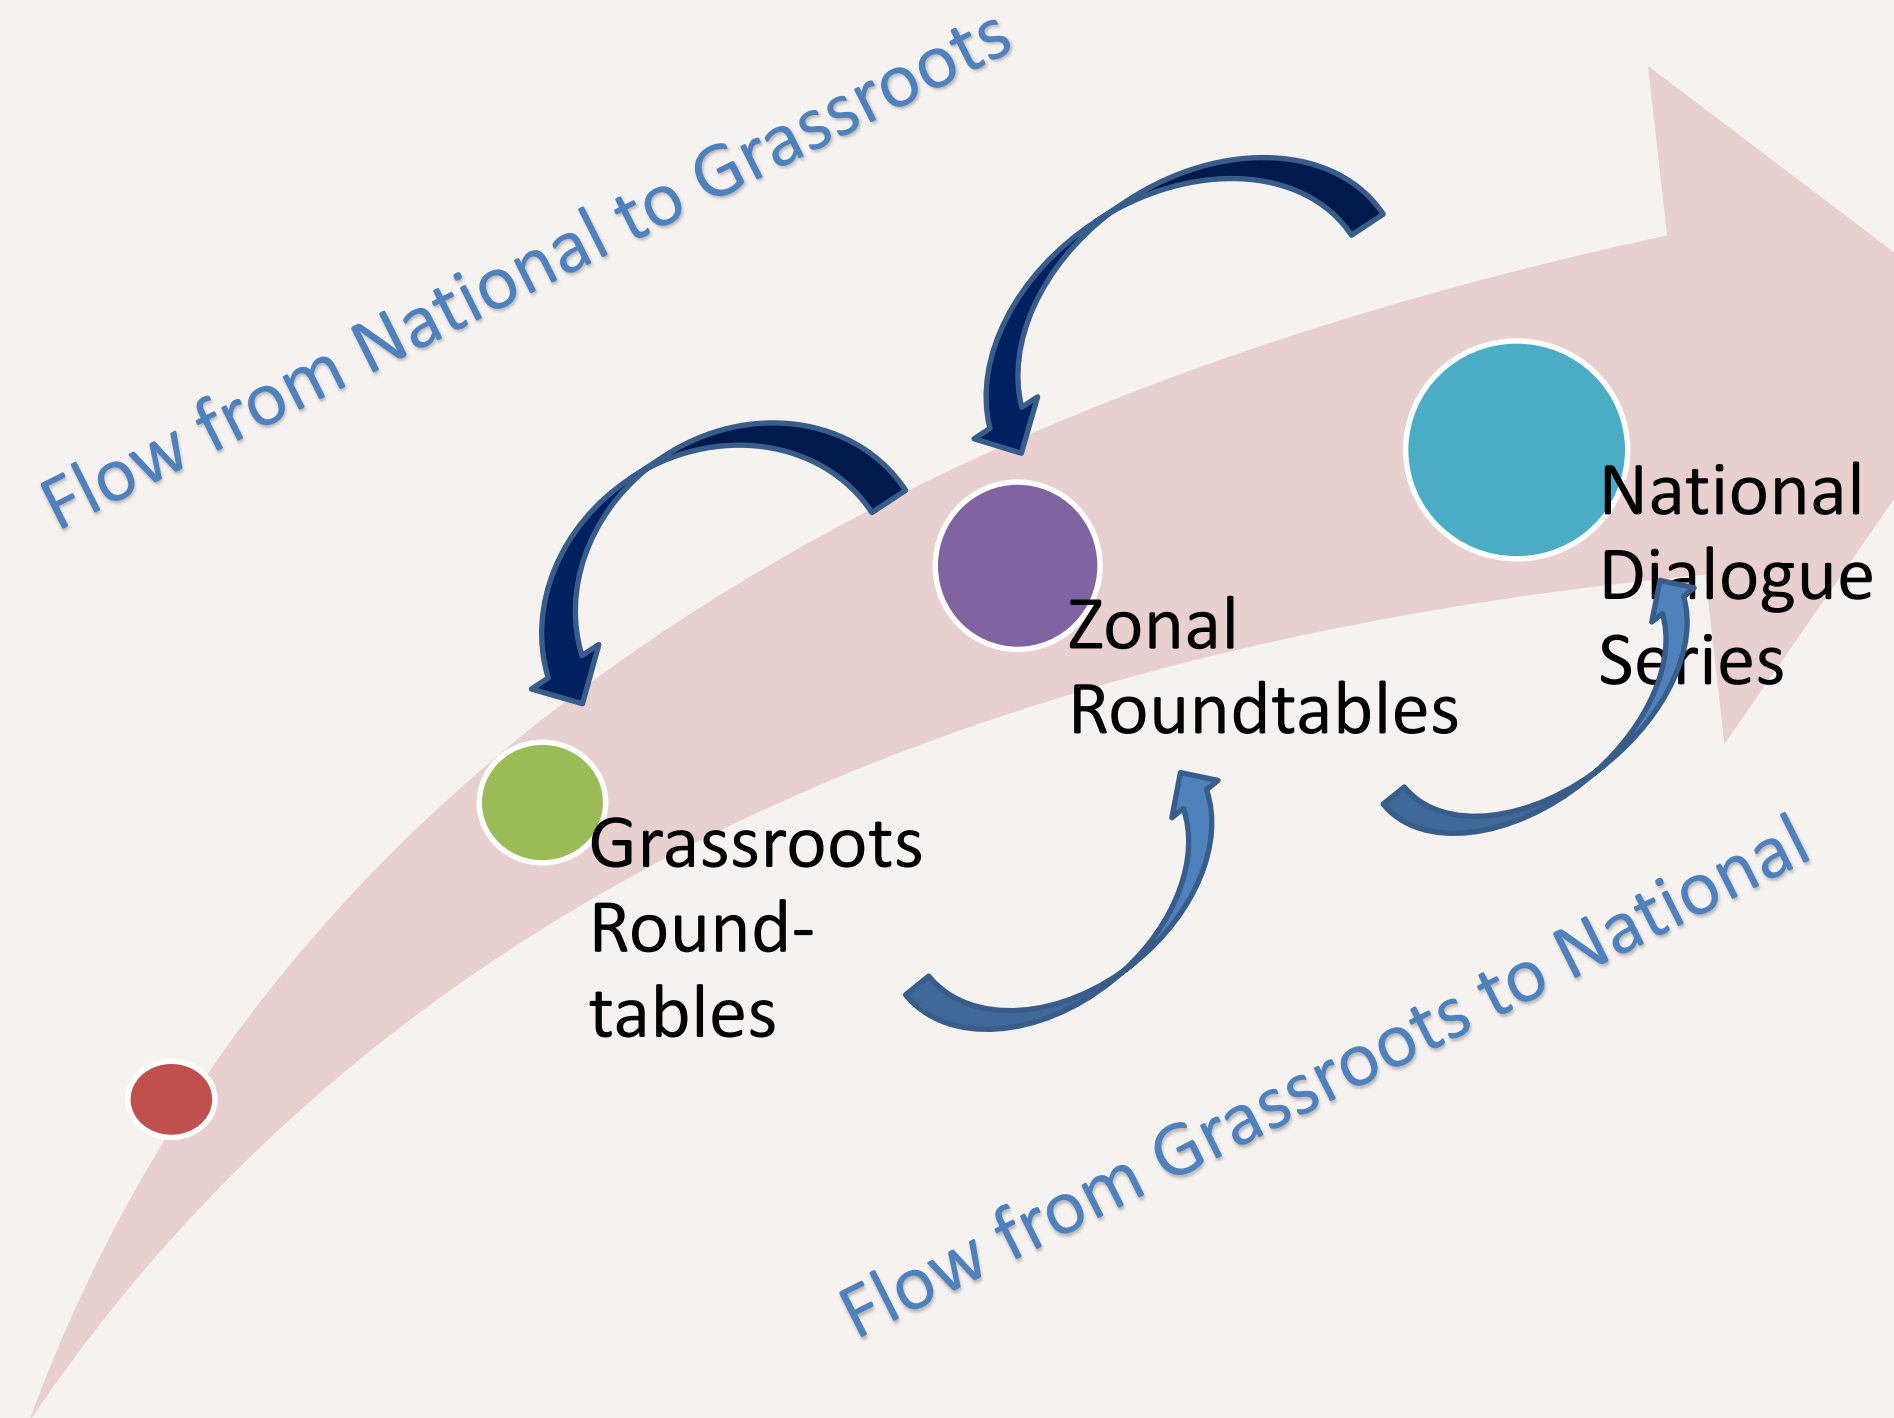

Policy influencing

For tenure rights, enabling fiscal policies

GhaFFaP National Dialogue Series :

To promote FFPOs influence on Policy, Access to Finance & Access to Markets

GhaFFaP Green Ghana (3Gs)

Smallholder Forest and Farm Producers (FFPOs) as key agents for Forest Landscape Restoration (FLR)

Key objectives :

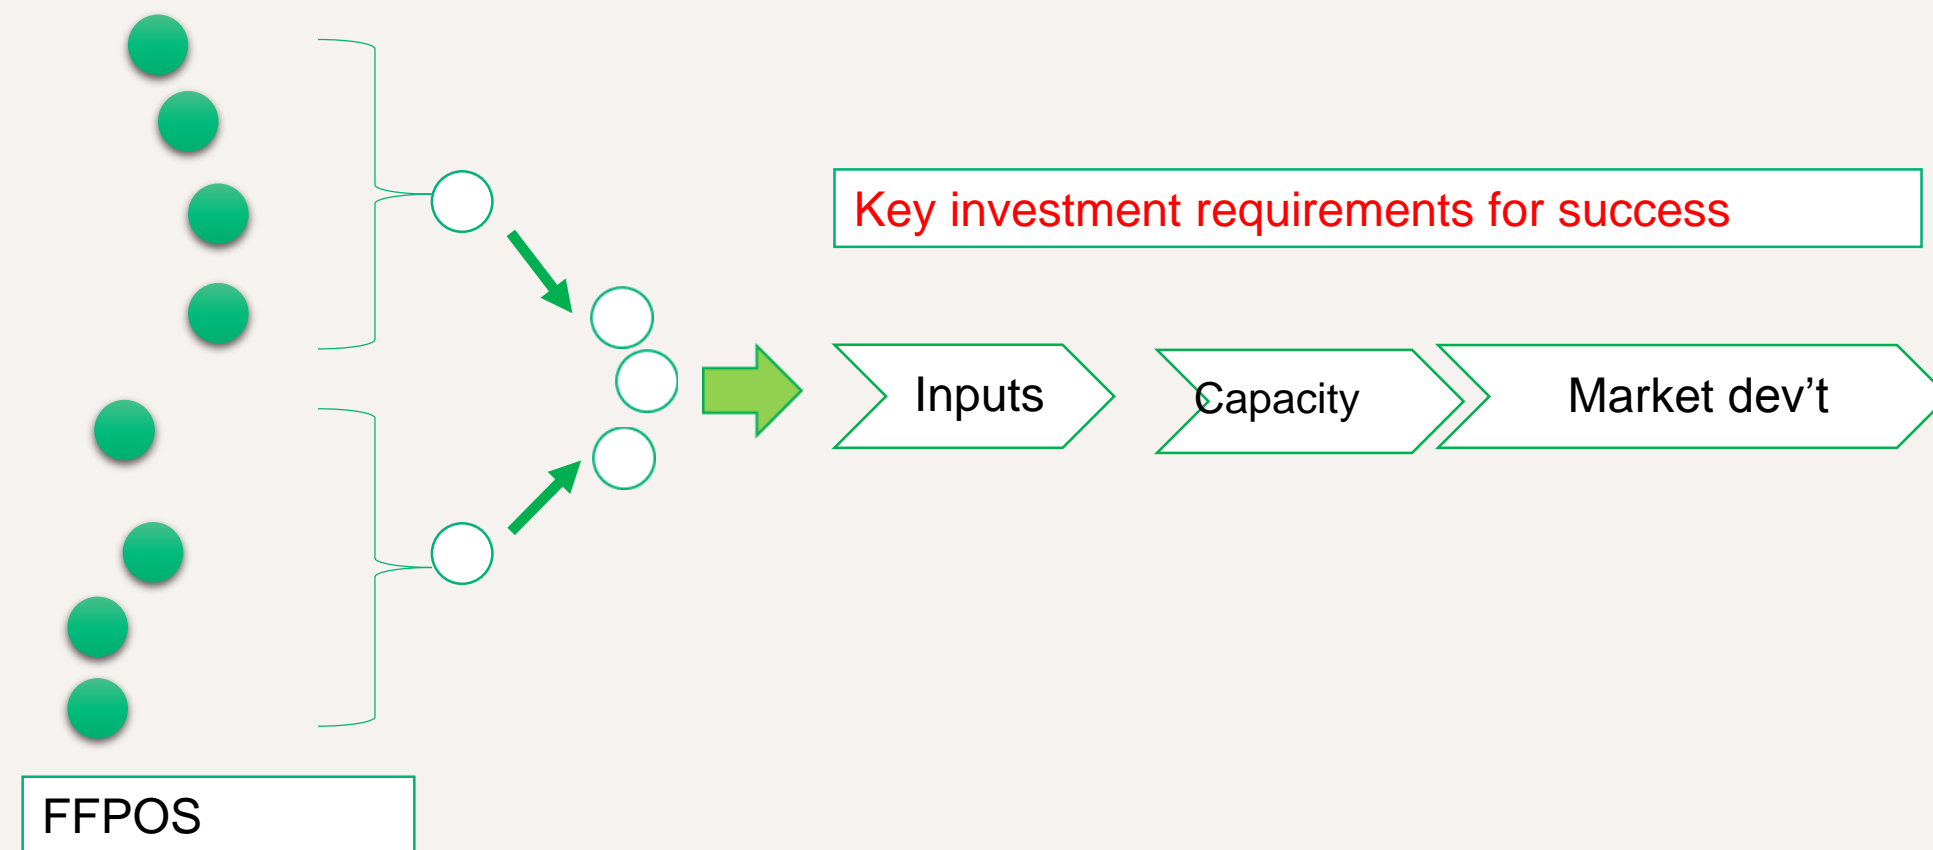

- Contribute to restoring **30,000+**hectares with conservation farming and tree growing-addressing climate change
- To create **20,000** jobs for FFPO members- including women , youth, PWDs through creation of green businesses and farms

Approaches :

- Establish 3 Ecological GhaFFaP green tree centers
- Facilitate establishment of **60 GhaFFaP green community gardens** ; **30** community nurseries strategically located to produce tree seedlings
- Business skills training to **5000 forest and farm** producers working in tree value chains

INVESTMENTS REQUIRED BY FFPOS AS AGENTS OF RESTORATION

Conclusion

Smallholders are at the last mile of forest frontiers

FFPOs require **critical investment** support in restoration

A gender –inclusive approach is required
